# UNCOVER A NEW TEMPTATION

2010 CAR ENTERTAINMENT PREVIEW   

It's time your in-car system reflected who you are. Pioneer's 2010 car entertainment line-up gives you the power to reach your ideal listening experience. Our products are designed to get to the essence of what a sound system is all about: you and your music. Whatever direction you choose to take, we have a solution to get you there. Just put your foot down and don't look back.

# STAY CONNECTED

Now you can have all your music, all the time. With Pioneer's SD CD tuners you get the versatility of both SD and USB connectivity, so you'll never have to leave your music behind when getting into your car. Connect your iPod, iPhone, portable MP3 player or USB devices, or simply insert an SD card containing your favourite tunes. Each SD CD tuner also offers complete flexibility when it comes to connecting extra amplifiers, speakers and subwoofers, giving you the freedom to enjoy your entire music collection just the way you want.

## DEH-7200SD

*Optional remote control available (CD-R320).*

SD CD RDS TUNER

## FLAP-TYPE FRONT PANEL

The DEH-7200SD features a Flap-type Front Panel. At the push of a button, the unit's front panel flips open to reveal the CD and SD slots. Once your format has been inserted, you can flip the panel back into place to maintain the smooth, clean look of your car dashboard.

## SD CARD SLOT

Take your entire music collection on the road. Pioneer's SD CD tuners each have an SD Card Slot discreetly hidden behind their front panels. So now you can simply insert an SD or SDHC card filled with your favourite tracks. There's no more worrying about having to leave your CD collection or portable audio player in the car; just transfer your tunes to the SD card, and leave it in the slot. With all 2010 SD CD tuners you can play back a host of file formats from SD, including MP3, WMA, WAV and AAC files. It's the most convenient way to take all of your music on the go.

## DEH-5200SD

SD CD RDS TUNER

Optional remote control available (CD-R320).

### FULL-DOT BLUE OEL DISPLAY

With the Full-dot Blue OEL (Organic Electro-Luminescent) Display, taking charge of your music becomes even easier. Three lines of information make it more convenient to search and select tracks from sources such as SD, USB, iPod or iPhone. OEL technology also allows for wide viewing angles, active 3D visuals and high contrast and brightness – even in sunlight.

## DEH-4200SD

SD CD RDS TUNER

Optional remote control available (CD-R320).

### 5-BAND GRAPHIC EQUALISER (GEQ)

Take control of your in-car sound. Pioneer's 5-band GEQ lets you adjust five separate frequency bands, so you can set equalisation levels to perfectly match the acoustics of your car and suit your personal taste. For ease of use, the 5-band GEQ has seven preset equaliser curves, which can be recalled at any time.

# YOUR MUSIC FIRST

There's no more compromising when it comes to enjoying your music in your car. Pioneer's 2010 line-up of multi-format CD tuners gives you the flexibility to focus on the things you find important in a car sound system. Flexible playback of audio formats, system expandability, smooth integration and perfect control: there's something for everyone. Take a drive with Pioneer, and see what you've been missing.

## DEH-3200UB

iPod/USB CD RDS TUNER

### iPod DIRECT CONTROL

Control your iPod or iPhone directly from your CD tuner. The iPod Direct Control feature is the easiest way to take charge of your iPod music from behind the wheel. Simply connect your iPod straight to your Front USB terminal, and you're set. Never worry about having to handle your iPod while driving; just use your CD tuner's Rotary Commander as you would use your iPod click wheel. As a handy extra, your iPod will also charge while connected. The iPod Direct Control feature is available wherever you see the "Made for iPod" or "Works with iPhone" logos.

*Pioneer recommends using the optional CD-U50 cable to connect your iPod to your CD tuner's USB terminal.*

### FRONT USB

Front USB makes it even more convenient to enjoy your portable music players on the road. Now you can quickly and easily connect your USB devices directly to your CD tuner's front panel. This takes the stress away from adding new sources while driving.

*Pioneer recommends using the optional CD-U50E cable to safely connect your USB devices while driving.*

## DEH-2200UB/2200UBB/2220UB

USB CD RDS TUNER

The DEH-2200UBB features a blue display.

The DEH-2220UB features green button illumination.

## DEH-1200MP/1220MP

CD RDS TUNER

The DEH-1220MP features green button illumination.

### FRONT AUX-IN

With Front Aux-in you can hook up a range of portable audio devices to your Pioneer CD tuner using a mini-jack cable. So now you can enjoy even more of your music collection on the road.

Connect your portable devices to your CD tuner's Front Aux-in terminal using the optional CD-V150M cable.

# HEAR THE DIFFERENCE

High-quality in-car sound does not always have to come with the installation hassles. Pioneer's easy-installation audio products make quality audio a possibility, no matter the size of your car or your installation expertise. With compact sizes, sharp designs and flexible connection possibilities, you're sure to find something that's right up your street. It's time to hear your music the way it was supposed to be heard.

## COMPACT AND READY TO GO

Extremely compact in size, the TS-WX210A is perfect for smaller vehicles. It can be installed horizontally or vertically, which means you can maximise the available space in your car. If you have no room in the boot, just slide it under your seat out of reach. Thanks to the sub's highly powerful built-in MOSFET 150 W Amplifier, there's no need to install an external amplifier; simply connect the TS-WX210A straight to your CD tuner.

Wired remote control included.

**TS-WX210A**

**150 W MAX.**

20 CM AMPLIFIED SUBWOOFER

## THE COMPLETE PACKAGE

The TS-WX303 is the smart solution for boosting your sound system with powerful, deep bass tones. Supplied already built into its rigid enclosure box, it ensures quick and easy installation, while its sharp design will make a statement in any car interior.

**TS-WX303**

**1200 W MAX.**

2 X 60 W (4 Ω)/1 X 175 W (4 Ω BRIDGED)/2 X 85 W (2 Ω) CONTINUOUS OUTPUT POWER

## PERFECT INSTALLATION PARTNER

Building your complete in-car sound system could not be more convenient. The GM-3400T is fully flexible when it comes to installation. As it is a bridgeable amplifier you get a wide range of connection possibilities for speakers and subwoofers. Its compact size also makes it the perfect solution for all types of vehicles.

# A NEW SOUND

Discover what high-quality audio can do for your in-car system. Designed by engineers with an ear for dynamic and powerful sound, TS-G speakers will give you the upgrade you have been looking for. Thanks to the combination of high-quality components, they can turn your drive into a live sound experience. It's time to make the change.
